

Amendments to the Drawings

Enclosed herewith are amended versions of Figures 2A, 2C, 2D, and 3D. In accordance with the Office's revised format, these drawing sheets have been labeled "Replacement Sheet".

In Fig. 2A, a typographical error in the final product structure where "R-O=O" is shown is corrected to "R-C=O".

In Fig. 2C, a CH<sub>2</sub> moiety is inserted between the NH and C-O linkage in the final product, consistent with the preceding structure prior to reaction with the lipid and H<sub>2</sub>/Pd-C.

Fig. 2D is amended to show the reaction proceeds upon addition of H<sub>2</sub>/Pd-C; DMAP/DCC are not required for this reaction.

In Fig. 3D, a carbon in the aminosugar that was omitted is added.
